PROVIDENCE.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING

SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no blueing required to make your clothes look nice and white; no washboard or no chine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Paints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

You raise the handle—water comes with ease,
Bells, have we, and cents that ring,
And to your door your servant bring;
Keys, we have 100, without number—
We'll fit them to you without a blunder;
Skates, we sharpen so you need not fall,
This pleases the children both great and small.

Something New and Commendable !

THE MONITOR COFFEE POT,

PATENTED NOVEMBER 22d, 1870.

Will be found superior to all others.

ITS GREAT RECOMMENDATIONS are, its simplicity, requiring no attention, as the signal that the coffee is ready for the table, is announced by the

"WHISTLE,"

and the fact that the entire strength is extracted and its

Aroma Wholly Preserved,

thus saving in a short time an amount of coffee equal to the cost of the Pot.

Scientific experiments have been made with a great number of the most approved varieties, the result of which proves that not less than one half the strength of the Coffee remains in "the grounds," but this is ALL SAVED by the

"MONITOR COFFEE POT."

THE REASONS FOR WHICH ARE

First—Its peculiar formation.

Second—The signal that it has been boiled a sufficient time, which cannot be misunderstood.

Third—The settling the Coffee.

These are the results of well known scientific principles and have been tested by many of our most reliable citizens, and pronounced by all

The Great Discovery of the Age, for Home Comfort.

These **COFFEE POTS** are made of the best materials and by the best workmen in the country, and are offered at the following extremely low prices—

1 Qt.—$1.25. 2 Qt.—$1.50. 3 Qt., $2.00. 4 Qt.—$2.50.

Or with Copper Bottoms, 15 cents extra.

NEWPORT DAILY NEWS.

WEDNESDAY, January 25, 1871.

The Methodist Troubles.

We have said but very little concerning the troubles at the Methodist Book Concern, preferring to wait until the investigation was over and the facts determined. It has been evident from the first that the troubles were, in a great measure, brought about by the action of the newspapers, which began by announcing great defalcations, frauds, &c., on the part of the managers. These grave charges have dwindled down until it is now held by even the most bitter enemies of the "Concern" that the only difficulties lie in the fact that the purchase of paper has not always been made at the lowest figures and that the system of bookkeeping is not the best which the times allow. Never, perhaps, was so great an outcry made when there was so little occasion for it. In answer to the first charge, responsible parties who are interested in the case, offer to compare the prices paid by the Concern with those paid by the Harpers, Appletons, or any other large house, and if the figures are not as low as in the case of these publishers, to make good the difference from their own pockets. This offer is not accepted by the accusers, and the fact ought to silence that charge forever. In view of all the circumstances, as it was believed that Dr. Lanahan set the stories afloat, and is in fact, the author of the anonymous and absurd charges that have been published, complaints were made against him for official misconduct.—The Committee, having the oversight of the matter, suspended him until the case could be heard, and hence comes the cry of persecution with which his sympathizers have assailed the public ear. The investigation has been had in part, and the case is now further postponed until the next General Conference which has supervision of the whole case. Experts will be employed to examine the books, and their report will doubtless settle the question at issue. In the meantime, it should be understood that there are no charges, except in the newspapers, of fraud or defalcation in the management of the business of the establishment. Dr. Lanahan claims that the business has not been conducted as judiciously as it might have been; but as he is a clergyman, utterly unused to transactions of this sort, his opinion is not of itself conclusive.—Those enemies of the church who have attempted to make capital out of this case, have thus far signally failed, their extravagances having simply involved their friend, Dr. Lanahan, in trouble, the end of which is not yet.

The Income Tax.

The press of the country is almost unanimous against the continuance of the odious income tax. We agree with the Boston *Advertiser* that the testimony of General Pleasanton, and Mr. Evart's opinion of its unconstitutionality have left it in an infirm condition. It has seemed to us that at the present rate, if it were honestly collected, it would die a natural death at the end of another year without having caused serious hardship to any one. But in the case of a tax which more than any other depends for its faithful collection on the personal honor of the tax-payer, it is necessary that the law itself should command a certain degree of respect. If there has been evasion and false swearing before, what may not be expected now,—especially among those who support the constitution as they understand it,—with such high authority against the law itself? In the present state of public opinion, with a considerable portion of the community opposed to the tax, and the rest indifferent, General Pleasanton is quite likely to be right in his opinion that it will not pay expenses to collect it.

The Prospect.

The fall of Paris is set down as sure by the first of February. According to late accounts of the exhaustion of provisions, coal, light, &c., and of the loss of confidence in Trochu, the quicker we hear of the surrender the better. It will be a great relief to the world to have the demoralized French leaders and the corrupted and broken-down French people find out that they are beaten. There does not seem to be much left for the German army to fight, and we wonder at the report of large accessions to their armies on the way from Germany, raising their whole army to 1,500,000. If they are chiefly coming over to see where Paris was they will be in season.

The London *Daily News* remarks that many worthy citizens of the United States seem to regard their Republicanism as a homespun suit, only to be worn at home. When they come to Europe they exchange it for a court dress. They are more monarchical and aristocratic, under a thin disguise of a verbal disclaimer, than the inhabitants of monarchical and aristocratic countries. No doubt there is a good deal of truth in the observation. There is a natural tendency, however, among mankind to go from one extreme to another. But the charge is not so pointed a one as that which can be truthfully preferred against a certain class of persons who come from Europe—England especially—and assume high toned airs, for purposes of fraud and imposture. The charge made by our intelligent cotemporary, sinks into insignificance, when compared with the latter.

Soldiers' Pensions.

Reports from Washington say that Vice President Colfax recently laid before the Senate a resolution of the Legislature of Indiana in favor of passing a bill received from the House granting pensions to the Soldiers and Sailors of the war 1812. It is suggested by one of the old soldiers of our city that similar action should be taken by General Assembly and we trust something of this kind will be done. It is poor policy to neglect the defenders of the country when old age comes upon them. Let us be just before we are generous and it must be admitted that this is a case in point.

Affairs in Paris.

A Versailles correspondent says that Mr. Washburne the American Minister in Paris, receives and forwards dispatches to his Government every week. Says a correspondent: "At 10 a. m. exactly, trumpets sound the parley on the left or western side of the Serres bridge, and the white flag is raised. A German officer in full dress comes forward to the broken arch of the bridge, gives the military salute, and says to the French officers who go to meet, they standing on the right or eastern side of the broken arch: 'Gentlemen, I have the honor to present to you my salute.' The latter reply: 'Sir we have the honor to salute you.' 'Gentlemen, I have the honor to inform you my mission is to place in your hands Mr. Washburne's dispatches.' 'Sir, we are going to have the honor to send for them.' Each gives the other a military salute, goes to his end of the bridge, and walks down the steps leading to the river bank. The French send off a boat, cross the river, and receive the dispatches from the hands of the German officer. The military salute is again exchanged. Each returns to his respective trenches, and fire is reopened the instant the white flag is lowered."

The poorer classes in Paris are said to enjoy the situation and be strenuous advocates of the "no surrender" policy. A writer within the walls says the official returns exhibit 477,000 persons supported by the Government, but he thinks number nearer 800,000. It is the danger of to-morrow, for the return of peace will not be the return of prosperity. What can then be done to relieve all these beggars, who have lost all taste for work, all habit of toil? This writer further avers that the stay law postponing the payment of house rent has worked mischievously. The convenience of living without paying house rent has become familiar to the people, and it will be hard to bring them back to their old regularity.

On Saturday upwards of two millions of cancelled fractional, legal tender and national bank notes were destroyed in the basement of the U. S. Treasury. Almost every day in the week a large amount of condemned money is thus destroyed, though seldom so large a sum as above referred to. A large iron furnace has been made, which is so built as to consume its own smoke, and into which the condemned notes are placed by a committee appointed for the purpose. The concern is then closed, and an immense draft of air is conveyed into the furnace by means of a hydraulic force pump, which is supplied from the Potomac water pipes in the building. The notes are then ignited, and the blast soon reduces them to tinder, which passes through a pipe into a reservoir of water, through which it is strained, leaving nothing but the chemical refuse, resembling somewhat the slag from a copper smelting furnace.

A new industrial pursuit has developed itself in Wisconsin, which promises, while it will somewhat deplete the State treasurey to afford many honest people a comfortable livelihood. The depredations committed on flocks by the wolves of the State have induced the Legislature to offer a bonus of ten dollars per head for every wolf's scalp brought to the authorities. The result has been that, under a mistaken idea of the purpose of the enactment, people in the rural districts of Wisconsin have gone heavily into the business of raising wolves, and the number of wolves' scalps turned over to the State is getting to be awkward. This is supplementing nature with a vengeance, and the worst of it is that while the scalps of the domestic wolves are being brought in and disposed of, the wild wolves, undisturbed in their peculiar avocation, are making things lively for the flocks.

The Providence *Journal* says that the boy Smith—whose preposterous story of being carried off on the cars against his will to some unknown region whence he was mysteriously returned, has taxed the credulity of every one—has owned up that the story is a lie, concocted to deceive his father and immediate family, and not intended for the wide circulation it obtained, and which rendered further deception impossible. The true statement is that the youth ran away to Framingham, to see a girl of his acquaintance, and disliking to have the truth known to his and her parents, he tried his 'prentice hand at inventing a story,

"The same with intent to deceive."

There appears to be trouble in the British cabinet. Serious attacks have lately been made on the administration of the army and navy, and the matter will soon be brought before Parliament. It is said that one or two members of the cabinet will soon resign or be thrown overboard. Mr. Gladstone has resigned his seat in Parliament for Greenwich.

The speculating Yankee is on hand in San Domingo in advance of the commissioners, prospecting for investments in case the island is annexed. Representatives of the progressive Teutonic nation are also in the field, looking out for favorable financial ventures.

A Washington special says there is no longer any doubt as to the settlement of the fishery question at an early day, and in a manner entirely satisfactory to American interests. A conclusion has been reached, and the treaty will be sent to the Senate in time to be considered and acted upon before the present Congress expires.

Bismarck replies to the representatives of neutral powers, who complain about the bombardment of Paris, and also to those who dwell upon the sufferings of women and children to the effect that all had fair warning, and all must take the consequence of neglecting it. Capitulation is the only way out of their difficulties now.

They propose to put a tax on the deposits in savings banks in Maine which have sixteen millions of dollars on deposit. Massachusetts derives a net income of a million of dollars from this source.

About Home.

THE SEASON.—Alfred Smith informs us that he has already leased twenty two furnished houses for next summer, and is daily receiving fresh applications from various parts of the country.

THAMES STREET.—If this street is to be widened during the present year, those having the matter in charge must be at the work soon. The street should be widened and graded before the season opens, and the time is short.

THE BOATS.—The New York steamers made their usual trips last night. The *City of Newport* found considerable ice in the the river between Newport and Providence, and there will doubtless be still more today.

BURNSIDE GUARDS.—We are pleased to learn that this company has been supplied with improved arms of the Springfield pattern in place of the old musket, which was quite out of date.

OUT FOR A RIDE.—This is one of the few days in the year when the people of Newport can enjoy a sleighride. Not a few of them seemed inclined to improve the opportunity.

OFF THE TRACK.—A freight train ran off the track at Somerset last evening, and delayed the passenger train until about midnight. The delay was somewhat unpleasant for all concerned but no other damage was done.

THE CATTLE DISEASE.—It is believed that the cattle disease has been extirpated from Rhode Island. It is well, however, to continue the precautions as it is liable to break out again at any time. Prevention is better than cure.

THE STORM.—The late storm and accompanying cold weather seems to have extended over the whole country. Thus far, no place north of the Potomac has been reported, in which it was not several degrees colder than in Newport. We put this fact upon record as another evidence that our city is a delightful residence in winter as well as in summer.

BIG GUNS.—Secretary Robeson is having made at Providence, the ten monster guns of fifteen-inch calibre which are to form the battery of the "Colossus," now being constructed at New York. The guns are to have iron carriages, with all of the improvements for their rapid and precise handling in broadside or pivot. The entire cost of the ten guns, with their carriages, when ready for service, will be about $100,000.

Portsmouth.

So far as we can learn there is no case of the cattle disease in this town, and its introduction will be stoutly resisted. Alfred Sisson is about to retire from the Bristol Ferry House and is to be succeeded by J. M. Mattison of Fall River, who will take charge of the Hotel in time for next season's business. Mr. Sisson has been a popular and efficient landlord and will retire with the good wishes of all who know him.

The Masonic Hall building is to be enlarged and greatly improved. The Lodge is represented as in a flourishing condition. So also are the Lodges of Good Templars and the new Odd Fellows organization all of which embrace some of the best citizens in the town.

The fisherman of this town are very much opposed to the legislation proposed by the General Assembly which threatens to seriously interfere with their business. Hon. Mr. Child ably represents his constituents by his opposition to the bill, and it is well known that he is one of the best informed men on the subject in the House.

Tiverton.

The *Monitor* has notes of several of the distinguished men, living and dead, of this town, from which we extract the following:

The attack of paralysis of Hon. Nathaniel B. Durfee, was a severe blow to him—struck down as he was in the active duties of life, holding the position of Representative to the Legislature, where he took a great interest as an exponent of the interests of the town. He was a gentleman well qualified for the position from experience as a legislator, having also served as Speaker of the R. I. House one year, besides having been a member of the National House of Representatives one term. The affliction is indeed a severe one to him, being entirely deprived of the use of one of his legs. He still fills the position of town clerk with the assistance of his family.

It has been ascertained that Col. David Durfee, his father, who is now in the enjoyment of excellent health, spry and active and in his 90th year, is the oldest man in Tiverton. He is well known to the citizens of Fall River as the predecessor of Hon. N. B. Borden as President of the "Fall River Union Bank."

Capt. Jos. Church is among the enterprising citizens of this town, where he has resided for the last 32 years, and followed the avocation of a fisherman and has reared six sons, who have all been engaged in the same business, some of them being also masters of vessels. Capt. Church is a native of Fall River, where he spent his boyhood as an operative in the woolen mill.

Capt. Church is also a shipwright, and built all his fishing craft, among which are a number of fine specimens of mechanism, including the smack "William Young," and yet he was never an apprentice at the business.

Major Edwin Hambly is the Postmaster of Stone Bridge Village, being the successor of Mr. Seabury, and gives general satisfaction. He is authorized to act as agent in obtaining subscriptions to the *Monitor*.

Hon. Clark Estes, being a man of excellent judgment in municipal and probate matters, as President of the Town Council, is popular with the citizens in general.

Hon. Gideon H. Durfee is among the residents of "Spowatt," where he is engaged in agricultural pursuits. He is among the lists of former Senators to the General Assembly. The Democracy have honored him a number of times with the nomination of Lieutenant Governor.

Isaac Barker, one of the old citizens of Tiverton, died at the age of 77 years, on Saturday. He was confined to the house for a few weeks past, and has been a great sufferer. His disease was consumption. He leaves a family.

South Kingstown.

Peleg Brown has a hog on exhibition in Wakefield which weighs 1440 pounds. It was raised in North Kingstown by George Austin.

A man, name not given, was found Monday morning, by George Armstrong, who had been lying on the piazza of a shop during the night. He had taken off his coat and spread it over him for a covering. The man reported that he had spent most of the night in the open air and finding it a little cold concluded to go up on the piazza. He had an empty bottle with him.

GENERAL ASSEMBLY.

January Session at Providence.

Senate.

The Lieutenant Governor presented a communication from Gen. Howland praying for action in regard to pension to soldiers of the war of 1812, Mr. Stevens urged that action be taken in the premises. He will probably introduce a resolution on the subject.

House.

Mr. Brinley called up the Fishing act which was discussed at length.

Various motions to postpone &c., were made and defeated but no vote was reached.

Mr. Bush presented a petition from the City Council of Newport praying for further time in which to establish a harbor line.

A small colored boy who has been for some time clerking in the United States Marshal's office in Memphis, has got a situation in the Louisiana legislature as engrossing clerk at seven dollars per day.

The Rome (Georgia) *Commercial* made its appearance the other morning with a hole in it. The editor explained it in the next issue by stating that he had discovered an objectionable article after the edition had been worked off, and had clipped it out of all the papers before sending them out.

A terrible hurricane visited Chatanooga last week, making chimneys, shutters and signs flying in all directions. The walls of a car wheel foundry and machine shop were blown down. Another house was blown down and it is thought the damages were quite extensive over the surrounding country.

The House of representatives passed, by a considerable majority, the bill giving "assimilated rank" to the staff officers of the navy. We trust the Senate will concur, and that the bill, which does justice and will remove a mischievous and fertile cause of disagreement on United States ships, will become a law.

Many of the line officers are favorable to the adoption of this measure, which does not injure or interfere with the discipline of the ships, or in any way lessen that supreme authority of a vessel's commander which is necessary to to the ship's efficiency, and to the proper responsibility of the captain.

A QUEER SWINDLE.—George Shaw was arrested in Boston, on Saturday, on account of some queer transactions with the Narragansett Steamship Company last month, but was soon released, not having committed any violation of the criminal code. He represented that he wished to buy steamer *Fall River* owned by the company, offered $40,000, and said he had the money ready, but disappeared when the negotiations were about concluded. The corporation went at an expense of about $200 for legal and travelling fees, on account of this bogus offer of a man without means. All the fellow was benefitted by the operation was a free pass to New York and back.

A despatch from Havana, Cuba, says that about the 20th of December, ultimo, an action took place, at what place is not stated, between the Prussian frigate Medusa and two small French gunboats, the Curieux and Brulox, resulting in the sinking of both the French vessels. The Curieux carried four brass 12 pounders and one 24 pounder, while the Prussian ship was armed with thirteen guns of heavy calibre. The French frigate Cercel left Montevideo in search of the Medusa immediately on receiving the news.

An exchange says "The season for chapped hands is fast approaching. The easiest and simplest remedy is found in every store-room. Take common starch and grind it with a knife until it is reduced to the smoothest powder. Take a tin box and fill it with starch thus prepared so as to have it continually at hand for use. Then every time that the hands are taken from the suds, or dishwater, rinse them while they are yet damp, rub a pinch of the starch thoroughly over them, covering the whole surface. The effect is magical.

The Weed Sewing Machine.

Not a few people, who have tried it, say the Weed Sewing Machine is the best of any in the market. All agree that it is good, and worthy of patronage. Messrs. Hibbard & Hawkins are selling it in large numbers.—O. G. Langley is the Agent for this city. See the advertisement.

The Lesson of Nature.

Torpor is the characteristic of winter. Vegetation dies or falls into a state of trance. The whole aspect of inanimate nature teaches us that there is a paralyzing influence in the air, and *ought* to teach us that our bodies require an increase of vital power to contend with it. Some of even the warm-blooded animals bury themselves in the earth and remain in a state of partial stupefaction until the season is over, and the elixir of the spring sunshine stimulates their stagnant blood, and restores their vigor. But man, although he feels the influence of the seasons, can protect himself against its inclemency. He has fuel to warm him externally, and can tone and strengthen his internal organization and endow it with the extra amount of vitality which the circumstances require. Of all invigorants that have ever been recommended for this purpose, Hostetter's Stomach Bitters is the purest and the best. Fortified by the daily use of this wholesome vegetable tonic, the human system may defy the chills and damps of winter in any latitude. Its effect is to promote a brisk and regular circulation of the blood, and activity in all the excretive organs.—Without the slightest tendency to produce fever, it imparts a healthful glow to the surface, and alternates the exterior vessels to discharge, in the form of gentle perspiration, the useless matter eliminated from the blood. Thus the system is kept unclogged. Fever and ague, bilious fever, indigestion and colic, all of which are the common consequences of the searching damps and low temperature of winter, may be avoided (as well as cured) by a course of this genial tonic and alterative.

"Sham Delays; They breed Disease."

No truer saying than the above was ever uttered. ROBACK'S BITTERS, PILLS and BLOOD PURIFIER have been before the public nearly a quarter of a century, and in no case have they failed to remove the disease when taken in time. "Delays are dangerous." Apply to your nearest druggist or store; they always have them.

SEWING MACHINES.—Among all the different Machines now in use, none stand higher, or have reached a greater state of perfection than the Weed Machine. We refer our readers to the advertisement in our paper, and would advise all to call and examine the machine before purchasing elsewhere.—Boston Daily Evening Transcript.

THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & Co's TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

TELEGRAMS.

General Plundering in Paris.

LONDON, 23.

Paris despatches state that a decree of the Government has just been issued which will startle those who sought their safety out of Paris. The privacy of their houses, left behind, is about to be violated by authorized plunderers, their cellars sacked of wines, wood and coal, and their store rooms invaded and their contents delivered over to fill the empty public stomach and replenish the public coal scuttle.

LIVERPOOL, 23.

Sales have been made of cotton shipped in December at Savannah and Mobile, and yet to arrive, at 7 7-8 d at 8d for middling uplands.

FROM WASHINGTON.

WASHINGTON, Jan. 24.

THE SAN DOMINGO QUESTION.

During the discussion of the San Domingo resolutions some days ago, Mr. Cox made a charge that some of the documents had been withheld from Congress, and stated that he had offered a resolution calling for a list of grants of privileges in San Domingo which had never been sent to the House. Mr. Orth this morning rose to a personal explanation and denied that any documents had been withheld. Mr. Cox had received his information of the existence of such grants and privileges from Dr. Davis, who was now deceased, and Mr. Orth quoted from a State Department letter to show that Mr. Davis was not the clerk who copied the document referred to. Mr. Cox in reply reiterated his statement, and expressed the most implicit confidence in what Mr. Davis had told him. He did not know who withdrew the documents from the State Department, but he believed they had been withdrawn.

THE WASHINGTON NATIONAL MONUMENT.

The Board of Directors of the Washington National Monument have adopted measures looking to the speedy completion of the monument, and at a meeting held recently the plans were matured so far that it is believed work will be resumed on the structure in a short time.

INDIAN BILL.

The House is engaged in the morning hour in the consideration of the bill from the Indian Committee in relation to a Government for the Indians, and Mr. Voorhees is making a speech on the subject.

WASHINGTON, Jan. 24.

The House Committee on Foreign Affairs will meet to day for the special consideration of the Alabama claims, putting them in shape for settlement. The proposition before the Committee most likely to receive its sanction, is the bill to appoint Commissioners to take testimony for the purpose of determining the amount of the claims. The proposition, that the Government shall assume the claims, does not command sufficient strength to meet the approval of the majority of the Committee. It is proposed to provide in the bill authorizing the Commission, that the British Government shall have the privilege of appearing, if it choose to do so. The Committee will be ready to report this week.

THE INCOME TAX.

WASHINGTON, Jan. 24.

The Committee of Ways and Means held a long session this morning on the subject of income tax. Gen. Pleasanton was before the committee and submitted a letter for the abandonment without any specific details. The committee returned the letter requesting him to enter more fully into the matter to show what reduction would be effected in the income, and what expenses might be saved if the entire income tax was abandoned.

Outside rumor says there is no immediate prospect of the abandonment of the tax.

Pratt's "Astral" Oil.

1st. It is the safest oil ever made; if a lighted lamp dified with it be upset and broken, the contents will not ex lode nor take fire.

2d. It is the cheapest oil, compared with its value; the cost not exceeding one cent per day that of kerosene, for a light uniformly beautiful and satisfactory, and free from danger of explosion.

3d. It requires no change of lamps.

4th. It is always uniform.

5th. It is perfectly pure, containing no mixtures nor chemicals.

6th. It gives the best light.

7th. It emits no objectionable odor while burning.

8th. It has received the endorsement of scientific men, the officers of over a hundred fire insurance companies, and thousands of private consumers.

☞ Dr. Sage's Catarrh Remedy is no Patent Medicine humbug gotten up to dupe the ignorant and credulous, nor is it represented as being "composed of teas and precious substances brought from the four corners of the earth, carried seven times across the Great Desert of Sahara on the backs of fourteen camels, and brought across the Atlantic Ocean in two ships." It is a simple, mild, soothing, yet powerful Remedy—a perfect specific for Chronic and Catarrh, "Cold in the Head," and kindred diseases.—The proprietor, R. V. Pierce, M.D., 133 Seneca street, Buffalo, N. Y., offers a reward of $500 for a case of Catarrh that he cannot cure. Sold by druggists, or sent by mail for sixty cents.

DR. J. MILLER'S
SOOTHING AND HEALING
BALSAM.
This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.
It has proved infallible for Burns, Scalds, Frozen limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear-Ache, Deafness, and Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin.—For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.
AS AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Diphtheria.
No person need fear to use this medicine, as it is purely vegetable in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

NEW ADVERTISEMENTS.

UNPAID BILLS!

THE UNDERSIGNED gives his public thanks to those of his customers who most considerately paid their bills, due January 1st, 1871, in the early days of the month.

By this same public method he asks the attention of those who have not paid and requests as a favor that they will pay before the 28th instant.

The undersigned is perfectly aware that all that is needed is a hint to call attention, knowing as he does that the public mind is so much interested in the French Prussian war and the Hook and Line or Trap Controversy in the Legislature that such trifling matters as unpaid bills escape the attention of many.

Carbolic Tablets,

Prepared by DR. WELLS,

The most important discovery of the age is this wonderful Healing and Cleansing agent for all diseases or weakness of the Respiratory organs, Sore Throat, Sudden Cold, Hoarseness, Catarrh, Asthma, Dryness of the Throat or Windpipe, diseases of the Lungs and for all irritation of the mucous membrane.

All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.

Dr. WELLS' CARBOLIC TABLETS act directly on the mucous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and Lung difficulty.

The proprietors would say, all first-class medicines have their imitations, and they would

CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.

SHERIFF'S OFFICE,
Newport, Jan. 23d, 1871.

NEWPORT SS.

BY virtue and in pursuance of an original writ of execution issued out of the Court of Justices of the City of Newport, on the 4th day of January, A. D. 1871, upon a judgment rendered on the 30th day of December, A. D. 1870, in favor of ROBERT F. TROLAN, of New London, in the State of Connecticut, and against GEORGE R. WADLEIGH of the City, County, and State of New York, Master of Yacht *Marie*, for the sum of $35 debt and $6.85 costs of suit, I have this day at 30 minutes past ten o'clock, A. M., levied the said execution on the Yacht *Marie* of about seven tons burthen and schooner rigged, together with all her paraphernalia, (the mainsail excepted), now lying fast at Newman's wharf in said Newport, of the personal property of said Defendant Wadleigh, (attached by me on the original writ on the 16th day of November at 55 minutes past 12 o'clock, P. M., and being the third attachment in order of time made by me, on said yacht); and

NOTICE is hereby given that I will sell the said attached yacht and all her furniture, at a Public Auction to be held on Newman's wharf at the place where the said yacht is now lying fast, on SATURDAY, the 4th day of February, A. D. 1871, at TWELVE o'clock, noon, for the satisfaction of said execution, debt, interest, costs, and my own fees and the two previous attachments and all contingent expenses, if there shall be a sufficient sum realized from said sale for that purpose, unless the said property shall be previously redeemed.

Conditions cash on delivery of the deed.

WM. D. LAKE,
Deputy Sheriff.
F. STANHOPE, Auct'nr. jan24-10t

Court of Probate, City of Newport, January 9th, 1871.

UPON the Petition of PEGGY F. GIBBS, widow of Alfred Gibbs, late of the city of New York, deceased, and the mother of his two children, viz:—ALFRED W. GIBBS and JOHN BLAIR GIBBS, minors, representing that said minors are seized of an undivided interest in certain real estate, situate in Newport, and in Middletown, in the county of Newport, and State of Rhode Island; and that they need a guardian of their estate in Rhode Island, and praying that Professor WOLCOTT GIBBS, of Boston in Massachusetts, may be appointed guardian of the estate of said minors in Rhode Island. The said Wolcott Gibbs, the guardian of said minors, in writing in conjunction with their mother, concurs in the purpose of her petition. The same is read and received, and is referred for consideration to Monday, the 30th day of January instant, at 10 o'clock, A. M. It is ordered that notice thereof be published for fourteen days, once a week, in the Newport Daily News.

SHERIFF'S OFFICE,
Newport, Jan. 21, 1871.

NEWPORT SS.

BY VIRTUE and in pursuance of an original Writ of Execution issued out of the Court of Common Pleas within and for the County of Newport on the eleventh day of January, A. D. 1871, and returnable to the May Term thereof, A. D. 1871, upon a judgment rendered on the 22d day of November, A. D. 1870, in favor of THOMAS KELLEY of Boston, Massachusetts, and JOHN B. MORAN of West Roxbury, same State, co-partners in said Boston as THOMAS KELLEY & CO., and against CHRISTOPHER G. HANDY and EDWIN C. HANDY, both of Newport in the County of Newport and State of Rhode Island, copartners as G. G. HANDY & SON, for the sum of $100 55 debt and $5 60 costs of suit; amounting in the whole to the sum of $106 15 whereof execution remains to be done, I levied the aforesaid execution on Wednesday, the 11th day of January, A. D. 1871, at 45 minutes past five o'clock P. M., on thirty-two barrels of flour of various brands, of the personal property of the said defendants C. G. Handy & Son, and NOTICE is hereby given that I will sell the said flour so levied on by me as aforesaid, on WEDNESDAY the 1st day of February, A. D. 1871, at eleven o'clock, A. M., at a Public Auction to be held in front of the Store of said C. G. Handy & Son, No. 226 Thames street in said city of Newport, for the satisfaction of the said execution, debt, costs, interest, my own fees and all contingent expenses, unless the said attached property be redeemed and said execution satisfied on or before the said time of sale.

WM. D. LAKE,
Deputy Sheriff.

Scientific & Popular Medical Works

—ON—

Manhood, Womanhood, and Nervous Diseases,

PUBLISHED BY THE

PEABODY MEDICAL INSTITUTE, No. 4 Bulfinch Street, Boston,

(Opposite Revere House.)

Dr. W. H. BARKER, Assistant Physician.

Medical knowledge for everybody. 250,000 *copies sold in two years.*

A Book for every Man.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION. A Medical Treatise on the Cause and Cure of Exhausted Vitality, Premature Decline in Man, Nervous and Physical Debility, Hypochondria, and all other diseases arising from the Errors of Youth, or the Indiscretions or Excesses of mature years. This is indeed a book for every man. Price only $1.00. 285 pages, bound in cloth.

A Book for every Woman.

Entitled SEXUAL PHYSIOLOGY OF WOMAN, AND HER DISEASES; or, Woman treated of Physiologically and Pathologically, from Infancy to Old Age, with elegant Illustrative Engravings. 350 pages, bound in beautiful French cloth. Price $2.00.

A Book for Everybody.

Flattered by the reception of, and great demand for, the above valuable and timely treatises, and also to meet a great need of the present age, the author has just published a new book, treating exclusively of NERVOUS AND MENTAL DISEASES. 150 pp. cloth. Price $1.00, or sent free on receipt of $3 for the other two books, postage paid.

These are, beyond all comparison, the most extraordinary works on Physiology ever published. There is nothing whatever that the Married or Single, of Either Sex, can either require or wish to know, but what is fully explained, and many matters of the most important and interesting character are introduced to which no allusion even can be found in any other works in our language. All the New Discoveries of the author, whose experience is such as probably never before fell to the lot of any man, are given in full. No person should be without these valuable books.

"Valuable Books.—We have received the valuable medical works published by the Peabody Medical Institute. These books are of actual merit, and should find a place in every intelligent family. They are not the cheap order of abominable trash, published by irresponsible parties, and purchased to gratify coarse tastes, but are written by a responsible professional gentleman of eminence, as a source of instruction on vital matters, concerning which lamentable ignorance exists. The important subjects presented are treated with delicacy, ability, and care, and, as an appendix, many useful prescriptions for prevailing complaints are added."—*Coos Republican, Lancaster, N. H.*

"The author of these books is one of the most learned and popular physicians of the day, and is entitled to the gratitude of our race for these invaluable productions. It seems to be his aim to induce men and women to avoid the cause of those diseases to which they are subject, and he tells them just how and when to do it."—*Chronicle, Farmington, Maine, Sept. 7, 1869.*

☞ Either book sent by mail on receipt of price.

N. B. The Author of the above-named medical works is the Chief Consulting Physician of the Peabody Medical Institute, and is so constantly employed in consultation with invalids from all part of the country, that he has no time to attend to mere business details. Therefore all letters should be addressed to the PEABODY MEDICAL INSTITUTE,

Dr. W. H. PARKER, the Medical Assistant of the Author, and his Business Agent, who, as well as the Author himself, may be consulted on all disease requiring skill, secrecy and experience.

AT THE

Great Fair of the American Institute,

IN NEW YORK, OCT. 20, 1867,

AND HIGHEST PREMIUM FOR

Best Manufacturing Machine

—AT—

Paris Exposition, July, 1867.

NO. 1 FAMILY MACHINE.

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.

It has a straight Needle, Perpendicular Action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the coarsest to the finest number.

SPECIAL ATTENTION IS CALLED TO OUR NEW IMPROVED

Nos. 2 & 3—Manufacturing Machines.

They have been thoroughly tested on every description of Cloth and Leather Work, running by Steam Power at the rate of

1,200 Stitches per Minute.

Producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light and are comparatively noiseless.

The Tailoring or Leather Work we claim that they are not only equal, but much superior to any other machine that has ever been offered to the public.

BOTH SEXES, SINGLE OR MARRIED,
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass., is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he **is the only regular graduate physician advertising in Boston.**

TWENTY YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

WATERS

New Scale Pianos,

With Iron Frame, Overstrung Bass and Agraffe Bridge,

MELODEONS AND CABINET ORGANS,

The best Manufactured: Warranted for 6 years.

Fifty New and Second-hand Pianos, Melodeons and Organs of six first-class makers, *at low prices for Cash*, or, one-third cash and the balance in Monthly Instalments. Second-hand instruments at great bargains. Illustrated Catalogue mailed.—Warerooms, 481 Broadway, New York.

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument*. Stronger endorsement we could not give.—*Home Journal.*

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

☞ The Bonds are issued at $20,000 per mile against the portion only of the line fully completed and equipped.

☞ The greater part of the road is already in operation, and the present earnings are largely in excess of the operating expenses and interest on the Bonds. The balance of the work necessary to establish through connections, thereby shortening the distance between St. Paul and Chicago 45 miles, and 90 miles to St. Louis, is rapidly progressing, in time for the movement of the coming grain crops, which, it is estimated, will double the present income of the road.

The established character of this road, running as it does through the heart of the most thickly settled and richest portion of the great State of Iowa, together with its present advanced condition and large earnings, warrant us in unhesitatingly recommending these bonds to investors as, in every respect, an undoubted security. A small quantity of the issue only remains unsold, and when the enterprise is completed, which will be this Fall, an immediate advance over subscription price may be looked for.

The bonds have 50 years to run, are convertible at the option of the holder into the stock of the Company at par, and the payment of the principal is provided for by a sinking fund. The convertibility privilege attached to these bonds cannot fail to cause them at an early day to command a market price considerably above par. U. S. Five-twenties, at present prices, return only 4 1-4 per cent. currency interest, while these Bonds pay 8 1-4 per cent., and we regard them to be as safe and fully equal as a security to any Railroad Bond issued; and until they are placed upon the New York Stock Exchange, the rules of which require the road to be completed, we obligate ourselves to re-buy at any time any of these Bonds sold by us after this date at the same price as realized by us on their sale.

All marketable Securities taken in payment free of Commission and Express charges.

F. M. SEABURY,
Or CHAS. E. HAMMETT, Jr.

Newport, Dec. 16, 1870.

Why

Is it that Dr. Roback's Stomach Bitters increase in sale every year?

Because

They are the best combination ever made.

Why

Do the Druggists recommend Dr. Roback's Bitters to their customers?

Because

After years of experience and trial they have been proven to be a sure cure for Dyspepsia and Indigestion.

Why

Is it that Physicians use and recommend Dr. Roback's Sugar-coated Blood Pills?

Because

They know the ingredients of which they are made.

Why

Are Dr. Roback's Blood Purifier and Blood Pills the best remedies taken together for the cure of all diseases of the blood?

Because

The Blood Purifier is the only article in the market which contains the celebrated costly Drugs imported expressly from Sweden for its manufacture, and the Pills contain the active principle of Podophyllum (Mandrake Root,) and is a substitute for Mercury.

Why

Are Dr. C. W. Roback's Stomach Bitters, Blood Purifier and Blood Pills the three greatest remedies the world has ever known?

Because

After eleven years' experience and trial the sales have increased each and every year, and thousands of letters (unsolicited) of the remarkable cures they have performed bear witness.

MANHOOD: HOW LOST, HOW RESTORED.

JUST PUBLISHED, a new edition of **Dr. Culverwell's Celebrated Essay on the** radical cure (without medicine) of SPERMATORRHŒA or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY, and Fits, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.

☞ This Lecture should be in the hands of every youth and every man in the land.
